Summary: Computer Science student at UW Tacoma with hands-on experience in full-stack development, Agile workflows, and building impactful software projects. Skilled in Java, C#, and SQL with a strong focus on usability and collaboration.

EDUCATION

Bachelor of Arts in Computer Science and Systems | University of Washington Tacoma - Tacoma, WA

September 2022 – 2026

- Minor in Business Data Analytics
- Relevant Courses: Software Development and Quality Assurance, Data Structures and Algorithms, Database System Design, Programming language concepts, design and analysis of Algorithms

PROJECTS

RV Solutions

MySQL, React, Git, GitHub | June 2025

- Designed and implemented a relational database schema for a peer-to-peer RV rental model using MySQL
- Developed scripts for data insertions, selection, and management to simulate platform functionality
- Collaborated with team members using Git and GitHub to ensure team coordination.

Storage and File Sharing Platform

Next.js, TypeScript, TailwindCSS, Appwrite | January 2025

- Built a responsive file-sharing platform supporting secure uploads/downloads for 10+ file types with user auth.
- Used Appwrite for backend storage and user auth, and git for version control.

Tri-Campus Game jam – “Time of Death”

Unity, C#, Git | April 2025

- Designed and programmed enemy AI, player controls, and interactive UI for a top-down action game in under 1 week.
- Learned C# and Unity in 3 days and implemented all combat mechanics, enabling full gameplay loop for testing.
- Contributed to game balance and bug resolution, improving performance and stability before final submission.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, Python, C#, SQL, HTML/CSS
- **Tools & Frameworks:** Git, GitHub, IntelliJ, Swing, Next.js, Tailwind, Unity, SQLite, MySQL, Tableau
- **Concepts:** OOP, MVC, Agile, Data Structures, Predictive Analytics, Full-Stack Dev

PROFESSIONAL EXPERIENCE

Code2040 Fellows Program

August 2024 – April 2025

- Participating in a fellowship aimed at advancing racial equity in the tech industry.
- Developing technical skills through workshops and collaboration, focusing on software development and technical knowledge.
- Contributing to a diverse, inclusive community of fellows and gaining experience advocating for equity in the professional setting.
